

REFRIGERATION AND AIR CONDITIONING

ENHANCED CAPITAL ALLOWANCE LIST

The following items have been accepted by the UK Government as energy saving technology and therefore eligible for Enhanced Capital Allowances in the Refrigeration category.

PRODUCT	QUALIFYING TECHNOLOGY
DIXELL	
300 series controllers	Controls - Defrost Minimisation
XJ500	Controls - Lighting timed relay control
ELIWELL	
EWPC	Controls - Defrost Minimisation
EWDR	Controls - Defrost Minimisation
EWPX	Controls - Defrost Minimisation
EWDB	Controls - Defrost Minimisation
EWDA	Controls - Defrost Minimisation
EWDS	Controls - Defrost Minimisation
EWDL	Controls - Defrost Minimisation
PARKER	
Expansion Valves in series N / C / S / R & I	Controls - Balanced Port Expansion Valves
RP Rapid Air Purger models	Automatic Air Purgers
SAGINOMIYA	
All EEV valves in series DKV / EKV / PKV / BKV	Controls - Electronic Expansion Valves for retail cabinets
EEV Controller Refcon-1 JNE-Z20-020	Controls - Electronic Expansion Valves for retail cabinets
WURM	
AHC980 Controller	Controls - Anti-condensation Heater Control
RNC980 Relays	Controls - Anti-condensation Heater Control
KUBA	
Kubatron QKL2B	Controls - Defrost Minimisation
Kubatron QKL2T	Controls - Defrost Minimisation
