CONTROLLERS THAT WORK STRAIGHT OUT OF THE BOX

The ID Cool and ID ChillnFreeze are the result of a winning combination: designed by Thermofrost Cryo and manufactured by Eliwell.

The new evolution controllers cover high to low temperatures with two controllers instead of three. Rest assured after reading all the incredible product features listed.

- Pre programmed for cool, chill and freeze applications
- Pre set temperature, quickly and easy adjustable
- Compatible with industry standard PTC and NTC probes
- 230v AC mains supply
- Industry standard 32 x 74 mm format
- Individually boxed
